Color block road smash hit 3ds

Completing Challenge Tokens will reward the player with various rewards, from stages to custom specials, Mii Fighter gear, trophies, and more. Certain challenges marked by a light blue square will reward the player with a hammer that can be used to instantly obtain the challenge reward, without having to complete it. Keep in mind that if the challenge is to unlock a character or other secret, breaking the mosaic won't give you that character. There are 140 Challenge panels in the Wii U version of Smash Bros. For more information about the challenge, its reward, and tips for beating it, see the table below to find the corresponding challenge (Row Cards and Column Numbers). RED panels cannot be unlocked with a hammer, and BLUE panels will reward you with a hammer (both purple rewards you and is immune to a hammer) For 3DS challenges, see Page 1, Page 2, and Page 3Challenge: Clear Classic at 9.0 intensity without losing a single life. Reward: Double Final Smasher Protection Badge HammerStrategies: Challenge: Play as Lucina and score 8 or more KOs in a single Cruel Smash. Reward: Vampire Breaststroke Badge You can't use HammerStrategies: Lucina can use her counter movement with great effect, as long as it's her timed right. To make the most of his attack, he lures wrestlers to the side of the stage and continuously falls below the stage and retrieves it before they can hit you. Then he climbs up and dodges rolling behind them, keeping his back to the edge. As they become attack, use your counter to hit all of them, with the power of your attack reflected - they must fly quite far. Added with their terrible recovery, most of them should not come back. Then repeat the process for the next group, taking care not to get stuck or flooded by the fighters, and keep an eye out for the Mii Gunner's long-range attack. Challenge: Play alone and like Dr. Mario and get a Fever Rush 8 or more times in a single Trophy Rush game. Reward: 100000G HammerStrategies cannot be used: Using a custom Dr. Mario who has increased power, speed and starts with an item (preferably a star rod) makes this challenge much easier. A stronger item allows you to destroy cement blocks and cannons easily, but the Star Rod has the added benefit of shooting stars strong enough to remove timed bombs or destroy the entire bottom of the stage. Challenge: Play as Pit and score 4 or more KOs in a single Cruel Solo Strike Reward: Reaper Trophy Strategies: Instead of using the counter strategy used with Lucina, Pit has to rely on back throws to get the Mii off the stage. At first go immediately to the side of the there should only be one Mii there, throw them away quickly. Then continuously dodge on the edge, if a single Mii is within range of backward shooting, throw them away. If Mii's group around you simply jumps on one side, grabs the ledge, rolls past them, then runs the other way, waits for a Mii to go within range and repeat. This requires a little patience and few attempts, so don't get discouraged! :D Good Luck Challenge: Play as PAC-MAN in Stage 3 and score 300000 or more in Solo Target Blast using the Reward: Whomp Trophy Strategies: PAC-MAN back wall can fully charge your Up-Smash without having to touch the bomb. Start by jumping to the other side of the pump completely loading an Up-Smash. This will start the bomb, go up to it make another Up-Smash, then Up-Tilts until it's 75%. You should have 4 seconds to fully charge a downward blow to the back wall. The pump will get the annoying targets at the bottom right, as well as clean some of the blocks for the larger pump. For the larger pump use the same strategy. Jump to the other side, fully charge an Up-Smash, climb up, then up-Tilts until the pump is around 83%. Instead of a Down-Smash make a fully charged Forward-Smash towards the back wall with the pump about 4 seconds. Your goal is that the pump to get out is the middle of the stage, so you may have to wait to start crushing. When it explodes, it will activate the two bombs on the stage and eliminate most if not all Red Targets (had 1 leftover) and blocks. Using this I have 360000, but took some attempts though. Good luck! Challenge: Clear Solo Classic in 12 minutes with an intensity of 9.0 while playing as MarthReward: Critical Hitter Sword Strategies: Challenge: Collect all of the special moves Reward: Smooth Lander Brawn Badge Strategies: Challenge: Collect all of the custom OutfitsReward: Able Sisters Trophy Strategies: Challenge: Get 8 or more KOs in a single Cruel SmashReward: Toadsworth Trophy: Strategies For A2 for on completing challenges on eleven. Trophy Strategies: Just go for the easiest tickets like giant battle, hordes and metal battle. You'll almost always have at least one of these there and I put them in order of what you should go for. For giant all you do is load fluid while you does the job and then remove it by using high recoil movements like f-smash and right peak. for the horde just find an inclination that works and use it or use it and the shots back, and for the metal just try to get them off the stage and let gravity do its job. Challenge: Get a score of over 85 in a single Rival SmashReward: Waluigi Trophy Strategies: Check out the strategy in C8 for some basic tips for this challenge. Be sure to grab the prisoners blocks and smart bombs that appear. Also, keep an eye on your opponent and use tilts to steal some of the points they're trying to earn. Only fight the opponent when you have a clean shot, otherwise leave them alone or run away from them. They won't chase you, so there's no point wasting your time fighting them when you might be getting points. Feel free to accumulate some damage on it so you can keep it away by the time the hit ball appears, then just be patient and align your punch so you can hit it with your Final Strike. Challenge: Get a chain of 100 or more in a single game from Trophy RushReward: Chain Chomp Hat Strategies: This challenge can be done with any fighter, so choose someone you know well so you can destroy blocks with ease. Just avoid falling bombs, lightning balls and cannons - although you can keep your chain running after being damaged as long as another block breaks fast. Challenge: Of course only 10-Man Smash in 35 seconds while playing as Mii BrawlerReward: Fighter Uniform (Costume) Strategies: Mii Brawlers has a strong downward tilt that covers a good range, so stay close to the edge of a platform and stay on it until only the big version of yourself remains, then take it down with a few well-placed crush attacks. Challenge: Collect 15 different special movesRecar: Air attacker brawn badge Strategies: There is not a single way to collect custom specials, as you can find them in a variety of modes, such as Classic, All-Star, Smash Tour and Master and Crazy Orders. Challenge: Clear crazy orders while playing as VillagerReward: Rover Trophy & Hammer Strategies: View M8 for Challenge strategies: Clear the event When lightning strikeReward: Pokemon Stadium 2 Stage Strategies: For this event, you'll face 3 very large Pikachu. Be difficult KO them, unless you can even the odds by getting one of the Lightning elements that appears on the Stage. However, if an enemy catches him first, you'll easily be KO'd. Keep trying to get the Lightning first and use that time to KO the others. Challenge: Collect 50 unique trophies Reward: Celeste Trophy Strategies: Self-Explanatory - you can get From almost any mode - Classic, All-Star, Trophy Rush, Smash Tour, or you can simply buy them in the store every day! Challenge: Clear the Playing TricksReward: Smashville Stage Strategies: For this event, you need to catch both villagers on the ground with a Pitfall object at the same time. To do this, you can throw two different traps and have both stuck before one breaks out, or wait until they get close enough that you can get two for the price of a shot. Challenge: Delete a master order while playing as Mega ManReward: Mega Man's Tornado Hold Custom Special Move Strategies: View N3 for Challenge strategies: Clear Crazy OrdersReprofiest: Crazy Hand Trophy Strategies: Crazy Hand Orders differs from master orders in that while tickets are random, the difficulty will increase over time - and your damage will accumulate (although your health will drop a little between matches). There's also a 10-minute timer that you can't let run out before your final battle with Mad Hand. For an easy time, just complete a ticket and get straight into the crazy hand fight. Challenge: Play all maps in Smash TourReward: PAC-LAND Stage Strategies: Self-explanatory - if you're not a Smash Tour fan, just put on 3 CPUs and do something else – 90% Smash Tour is fully automated if a player takes too long, with the exception of battles, as you'll have to press X to let a CPU fight for you, or just don't do anything instead. Challenge: Get a chain of at least 50 in Trophy Rush while playing solo as Wii Fit TrainerReward: Wii Fit U Trainer Trophy Strategies: Getting a 50-hit chain in Trophy Rush won't take long, but give yourself enough time in case you fight. You can even suffer damage and continue your chain, as long as you don't wait too long between strokes. Try to get a

fever rush by hitting the gold blocks to secure a long series of hits. Challenge: Clear 10-Man SmashReward: 100 Gold Strategies: As with other multi-man crushing challenges, choose a character with a fast and strong upward tilt attack (such as Kirby, Link, Fox and others) and stay on one of the side platforms, using the upward tilt attack to quickly clear fighters as they fall from above, then finish the rest. Challenge: Delete a Master Order while playing as RosalinaReward: Comet Observatory / Luma Theme (CD) Strategies: As mentioned in N3, make sure you know what kind of match you are getting into, as the rules and paramatis are randomized each time. Shoot for easy difficulty if you're not familiar with Rosalina. Challenge: Delete a Master Order Entry Reward: Crazy Order Pass Strategies: Master Orders Vary in Difficulty, so choose a you feel comfortable with and look for a ticket with easy difficulty. Matches can vary wildly, so be sure to read the rules carefully before diving in. You can even combine this challenge with another one by playing as Rosalina or Mega Man. Challenge: Bump into an enemy who appears on the board during Smash TourReward: Nabbit Trophy Trophy This challenge can be defeated by any human player on Smash Tour, simply by entering an enemy that appears on stage. If you don't want to leave anything to chance, use 4 controllers to manually direct each player. Challenge: Create a mii Fighter in Custom Reward: Peach's Crown (Mii Headgear) Strategies: Self-explanatory - just create a Mii fighter, either through a stock character, one of the Mii you've made or import one! Challenge: Customize a fighter in Custom Reward: Shield Regenerator Protection Badge Strategies: Self-explanatory - simply customize a character with any of the equipment already provided, or anything you unlock while playing. Challenge: Create a stage in Stage BuilderReward: Sahara Trophy Strategies: Self-explanatory - just build one stage, no matter how simple! Challenge: Bump at all once while playing Smash TourReward: Mecha Suit (Mii Outfit) Strategies: While this challenge should be simple enough for anyone who plays Smash Tour, the easiest way to get this and other Smash Tour-related challenges is to get 4 controllers and manually direct each player so that everyone bumps into a player. Please note that the game will automatically move players after some time. Challenge: Clear event The original heavyweightsReen: Kongo Jungle 64 Stage Strategies: This is a fairly simple event, as long as you don't go for the optional reward. Try to extend Bowser and DK so you have room to punish either while the other tries to come back to you. If you're taking them near a stage edge, try throwing them back for an easy KO. Challenge: Clear All-Star Mode Reward: Victini Pokemon, HammerStrategies: This can be done on any difficulty, so be sure to choose someone you're good with, and fighters with great survival help. Note that you can only use 4 different recovery items in the rest period between matches, so use them sparingly (try to toggle with one recovery item every two matches). Alternatively, Robin's Nosferatu attack can still drain health, providing the only trap in this mode. Do you know a great way to overcome a certain challenge? Press the EDIT button at the top and share your secrets to clear the challenge panels! A great method to overcome various Target Blast challenges is to use Yoshi. Use your aerial flutter kick down on the bomb a couple of times before launching it with a hugely successful attack to give it a good trajectory and power. To get a high score in the Home-Run contest, use Ganondorf and crush 3 times, turn around, make 4-5 side tilts and then make a B attack backwards (press B and immediately press the opposite direction you're looking at the circle. To get a high combo for one of the challenges, put 4 smart bombs (the B's) together and start them all at once and you will see the combined meter soared from 60 - 100+. To easily overcome any of the multi-man crushing challenges (100 man, 3 minutes, etc.), except for the cruel crush, stand in the center of the stage and we Donkey Kongs down crush (where (where (where their hands on the ground.)) This has a high-impact area and always results in a KO. Ko.
